

2016

DEPARTMENT OF OCEANOGRAPHY AND COPAS SUR-AUSTRAL

ASI XVI

AUSTRAL SUMMER INSTITUTE XVI - UNIVERSITY OF CONCEPCIÓN, CHILE

BIOGEOCHEMICAL CYCLES IN CONTINENTAL MARGINS DURING THE ANTHROPOCENE and ECOLOGY AND DIVERSITY OF MARINE MICROORGANISMS (ECODIM)

- **Roberth Howarth, Cornell University, USA**
Sources and transport of nutrients to the coastal zone and their effect on aquatic ecosystems
4 - 8 January
- **Hans W. Paerl, University of North Carolina at Chapel Hill, USA**
Eutrophication and microbial processes in the coastal ocean
11 - 15 January
- **Laurence Mejanelle, Observatoire Océanologique de Banyuls-sur-Mer, France**
Geochemistry of contaminants
18 - 22 January
- **Jack Middelburg, University of Utrecht, The Netherlands**
Impact of coastal hypoxia and anoxia on marine sediments
25 - 29 January
- **Ecology and Diversity of Marine Microorganisms (ECODIM)**
<http://ecodim.imo-chile.cl>
11 - 30 January

Organizing Committee ASI XVI Department of Oceanography

Silvio Pantoja
COPAS Sur-Austral,
UNESCO IOC Chair Oceanography

Camila Fernández
CNRS-LOMIC, Banyuls sur Mer, France
COPAS Sur-Austral

Marcelo Gutiérrez
COPAS Sur-Austral

Oswaldo Ulloa
Millennium Institute of Oceanography

Information & Application
